AI-powered Photovoltaic Inspection Report

Inspection Summary

Inspection Date	17 July 2026, 21:17
Panel Status	Defective
Confidence	99.30%
Risk Level	Needs Review
AI Model	ResNet18 image classifier

Confidence Level

Model confidence: 99%

Uploaded Panel Image

AI Assessment

The uploaded photovoltaic panel was classified as **DEFECTIVE**. The result should be verified through manual inspection before the panel is returned to service.

Recommendation

Perform a detailed visual inspection. Verify electrical performance, check the affected module area, and replace or isolate the panel if the damage is confirmed.
